BERKELEY, CALIFORNIA

NOTICE TO STAFF MEMBERS OF THE MUSEUM OF
VERTEBRATE ZOOLOGY

It has been noted that several members of the museum staff spend the lunch hour on the campus or in their offices. Would not our group find it congenial to eat together within MVZ quarters once a week, or oftener if it is so wished? I suggest we bring our own lunches on Wednesday of each week, beginning February 3, and use room 2126 for assembly. Such gatherings may indeed serve some other useful purposes. Informal discussion of research activity, curatorial problems, field trips, and expenditures can properly be developed which will prove helpful to all concerned. No special agenda need be adhered to and no one should feel obliged to attend; however, all who can come are welcome.
