

Full information concerning this course is posted on board:

Directions for enrollment.

Equipment.

Table of weights used in final course grading.

Will those who did not ^{register Saturday} raise hands?

(Mr. Test count; if many, explain need of adjusting laboratory sections).

everyone complete registration in 3090 L S B immediately at end of this hour

Text-book as well as lab. materials needed at beginning of first laboratory hour - we begin work at once. Assignments ~~for whole term now distributed~~

Punctuality - in coming to lecture, lab. and field; urge.

Saturday's field-trip = "back-bone" of this course. Laboratory, in part, transferred out-of-doors. affords drill in seeing, in scrutinizing, highly organized beings, to see how their problems of existence and persistence are solved under normal, natural conditions.

Briefly now (more to be said Thursday):
Wear soft, warm clothing, soft (noiseless) shoes (no hob-nails), dull colored. Rain-coat if raining, for we go anyway!!
Place to be announced Thursday.
